We hope 2022 finds everyone healthy and hopeful for continued improvement in our cattle markets!

We had some major issues with our DNA lab that processes our sire parentage, as they also do covid testing for hospitals and clinics and got backed up on their other work. The result--we received that report on February 4--which has given us little time to get our info on the bulls to you in an even close to timely manner.

If you are reading this, you are either at the sale or it is the final few days before and you are anxious to get through the information and/or the pens of bulls, so I will not be my usual windy self.

The bulls look and performed well. We usually creep feed at least some during the summer, but because of cost, chose not to even with little grass. The calves came in this fall in surprisingly good shape and have continued to do very well on a ration of CHS bull challenger and free choice milo and oats long stem hay. 2 year old bulls have had grainless silage since last fall and some ear corn along with hay and silage since mid-December. This is our 2nd year without a hay crop of any kind here and we are grateful to the suppliers, truckers and bankers who have helped keep our cattle fed and happy!

Thanks to everyone who has purchased bulls from us in the past and we truly owe you everything for our continued success. We will keep trying to improve every year and hope you will be able to view this year's set of bulls as a great example of our commitment to supplying quality bulls that will go out and do well for you.

I'm pleased to announce Haven Stuck of Rapid City as the recipient of a \$2000 credit as our producer of the year for 2022. He and his daughter Taylor run cattle near New Underwood and sell a great set of heavy calves every Fall.

Thank you all and it sounds like the weather is going to cooperate Tuesday!

Sincerely—Joel, Kandi, John and Sheridan Deering

DISPOSITION SCORE

We are including this on every lot - disposition is a big priority and these scores are my own assessment from feeding by hand twice a day and working these bulls several times. Disposition also included in the guarantee!

Scores 1 - Nuts

- 2 Wild and/or Mean/High-Headed
- 3 Average; Normally mild but could act up potentially in the chute or if handled rough
- 4 Above Average
- 5 Excellent; has never shown at any time, anything but "Happy Bull" behavior
- 5+ Pet! Might need a stick to get him out of the way, likes to get a scratch now and then! Definitely no "1" or "2"s in the sale!

2 YEAR OLD'S

This is a nice group of aged bulls from spring and summer 2020. They're not fat and will be ready for heavy use. Some of these bulls were leased last summer and it will be noted. They all passed a semen test in June and will be tested again along with trich testing before delivery. We will make arrangements at the barn if you want to take them home on sale day.
